THE MANAGERS CLUB

This course is a perfect fit for experienced/ mid – level managers who want to take up leadership roles. I learnt a lot from the Certified People Leader Programme, not only from the IIMB workshops but also from the interactions with the other participants having great diverse corporate experience.

The sessions with my coach gave me an opportunity to self – analyze my own capabilities as well how to handle future challenges. The course content is very compact, and it enhances the visibility of a manager in areas like emotional intelligence, empathy at workplace etc. The faculties are great and the concepts and case studies they share during the workshops definitely enrich all the participants to a great extent.

I enrolled for the Certified People Leader Programme after realizing the importance of a leadership development program and I reached a point in my career where I was required to take up leadership roles and responsibilities. The course exceeded my expectations – especially the IIMB workshops related to emotional intelligence, leadership in VUCA world, having difficult conversations and the importance of empathy. The most enjoyable parts of the course were simulation, People Leader Journal content and peer – to – peer learning experience that I will cherish for a long time.
